State Senator Timothy D. Sullivan, representing the Lenox Athletic club, acted as chief incuisitor and invited any and all of those present to ask whatever questions they pleased of the witnesses.

"Honest" John Kelly, the referee, said: "Ip to the minth round I thought it was an even thing, and I firmly believe that there was no faking on the part of the principals, who were dighting to the best of their ability. TRADE CONCESSIONS.

The trade concessions, above referred to were confined to Great Britain and Germany and just what effect annexation of the Philippines to the United States will have upon them is a matter to be hereafter decided. A precedent close at hand is afforded by

the Freuch annexation of Madagascar, In that case the United States had a special treaty with the Malagasy government under which exports from the United States were admitted to the island under certain fixed and favorable ad valorem rates. The French government, which acquired the island by conquest, claimed that this treaty should give way to the ordinary French.
